WE ARE THE BANC FOR NONPROFITS

Partnering financial services
with public service.

As California's Bank, we take great pride in supporting organizations and activities that enhance the quality of life in the communities where our customers and employees work, live and do business.

By developing financial solutions and meaningful partnerships with a broad array of nonprofit organizations, we serve our diverse population and positively impact at-risk youth programs, affordable housing, veteran services, community revitalization, financial literacy education and workforce development.

We are the right-size local partner for your nonprofit financing and everyday banking

As a community bank headquartered in California, we focus on organizations that serve the same communities we do. Our smaller geographical footprint and depth of resources allow us to directly invest in our local communities, provide an unparalleled level of service with a local team and engage our employees to play an active role in supporting our partner organizations to serve our communities.

Our relationships with nonprofits go well beyond traditional banking services

Our greatest strength in serving the nonprofit sector lies not only in our understanding of your mission and financial services

needs, but in our passion for serving as your financial partner to ensure the sustainability of your organization in its support of our communities.

Since 2018, we have provided:

Our specialists are helping nonprofits succeed in challenging times

Having a partner who can help you create a strategic financial plan and identify financial solutions to navigate through challenges and uncertainties can make the difference in your success. We've built a team of specialists and support teams, including Community Reinvestment Act (CRA) experts. They know the region and its communities, understand their needs and are actively engaged with them. We are invested in supporting the communities we serve, and created a philanthropic BANC Foundation that provides grants, direct assistance and employee volunteerism in programs for financial literacy, affordable housing, community service and economic growth.
