

REMOTE DEPOSIT CAPTURE

Scan and deposit from your office, at any time.

Save time, help reduce expenses and speed up cash flow.

With **Remote Deposit Capture**, you can scan checks right from your business using a check scanner and deposit them electronically. No need to make a trip to the bank.*

Checks scanned before 5:00 p.m. PT (Monday through Friday) will be credited to your account the same business day. All other deposits after 5:00 p.m. and on weekends will be credited the next business day.

It's easy. You can use a single or multi-feed scanner, and the application is simple and intuitive. If you have multiple locations, you can scan and deposit from all of them.

It's safe and secure. Deposits are encrypted through a secure internet connection, and we employ processes designed to mitigate the risk of financial fraud.

It enhances your operations. Remote Deposit Capture improves operational efficiency, speeds up deposit processing and provides Detail and Summary reports and scanned image viewing.

Use Remote Check Deposit to safely deposit individual checks right from your computer.

Mobile Check Deposit is also available for qualified accounts. Ask your Relationship Manager for details.

Our easy-to-follow **online training videos** provide a clear demonstration of our mobile deposit capture services.
