SECURE CARD PAYMENTS

Processed seamlessly through your Banc.

Streamline your payment processing and get secure access to your funds.

With Deepstack, Banc of California's proprietary payments solution, we've cut out the intermediary vendors so your banking and payment processing are seamlessly integrated.

- **End-to-End Solution** includes payment processing, same-day account visibility, better reporting and account reconciliation
- **Optimize Cash Flow** with next-day funding from card receivables
- **Cost-efficient** solutions can unlock potential processing cost savings
- **Security and Encryption** backed by Banc of California's robust, multi-layered security and compliance practices
- **Same-day Settlement Reporting** in your time zone, based on your business day

With our all-in-one solution, you receive payments directly into your Banc of California account, and rest assured knowing our platform meets and exceeds Visa®, Mastercard®, Discover®, and American Express® security standards.

Our dedicated support team, staffed by real people, is available to help whenever you need it.

Let us manage your payments through Deepstack so you can focus on what matters most — your business.

Accept payments through a virtual terminal or online through your website.

Accepted payment types:

- Visa®
- Mastercard®
- Discover®
- American Express®

UNLOCK THE POWER OF DEEPSTACK

Discover a simpler, more efficient way to manage your payments.
